

Strategic Priorities:

- **To widen the range of inter-school competitions and increase the number of children taking part in inter-school competition**
- **To monitor and increase enjoyment of PE and sport for Winton children (and to identify specific groups who are not enjoying sport and PE)**
- **To increase participation in extra-curricular sport clubs at the school (and to identify specific groups who are not participating)**
- **To improve the quality of PE and sport clubs (and to identify key areas of improvement of PE coaches and deliverers of sport)**

Refer to 'measurable targets' document for specific targets and evaluation of impact

Additional Associated Aims:

- To restructure provision, including the use of sports coaches, in order to eliminate variability in provision and develop a consistent expectation for the quality and style of PE teaching.
- To further develop the range of PE and sporting opportunities available to pupils
- To redevelop the curriculum map in order to ensure a more coherent, varied and progressive programme of PE for all pupils.
- To increase participation and success in competition, including exploring possibilities for setting up a sustainable local network (including greater links between clubs, lessons and competitions)
- To increase and develop the skills of teachers delivering PE in EYFS and KS1
