## New this year...

### the voices foundation

transforming children through singing

We are very excited to announce we are going to be working with **the voices foundation**. The voices foundation helps children and young people 0-18 to learn to sing and develop as musicians. They also will be working with teachers to support the implementation of music. It is proven that children who engage in high quality, regular musical learning from an early age gain musical, intellectual, emotional and social advantages. We will also be setting up a school choir for KS2 and take part in new and interesting music lessons led by the class teacher. At the end of the year, we will be putting together a singing celebration assembly to share what the whole school has learnt.

See the link below to see how the voices foundation has helped other schools:

**Please remember:**

If you would like your child to celebrate their birthday at school. Please remember birthday cakes must not contain nuts and need to be halal.

All cakes must be pre-cut and in packaging so the children can take them home at the end of the day.

Please give the cake to Chrissy in the office and she will arrange for the teacher to give it out.

Packed Lunches

If your child brings packed lunch, these should follow our healthy eating policy and must not contain crisps, chocolate, sweets or fizzy drinks.

Please see the office staff if there are any queries about lunches.
