

On 12th March 2020, the government announced a move on to the 'delay' phase of its plan to tackle coronavirus. The immediate implication for the School is that:

Anyone (child or parent) with a new persistent cough or high temperature is now advised to self-isolate for 7 days.

We would ask, therefore that any students with such symptoms are kept at home for this period of time or for longer if their symptoms continue.

If you have a new cough or high temperature you should stay at home for seven days

Stay at least three steps away from other people in your home if possible

If your symptoms get worse or are no better after seven days seek medical advice

In England, go online to <https://111.nhs.uk/>, or call 111. Do not attend a GP or other healthcare provider unless instructed to do so.

We will always take into account the latest guidance in deciding our next steps. Please be reassured that we will do everything we can to protect and support our staff, pupils and their families.
